Pavilions and Pergolas

Western Red Cedar is widely known for its natural beauty and durability, and is the favored choice for builders and artisans when creating long-lasting, aesthetically pleasing outdoor

“Our structures are the green choice. We use only natural wood. No chemically treated or man made material.”

structures. In addition to its majestic appeal, it is naturally resistant to insects, decay and moisture. Choosing Western Red Cedar is an environmentally responsible choice, as harvesting

wood requires a mere fraction of the energy required to produce materials such as aluminum and steel—and wood is the world's only renewable building material.

The Western Red Cedar Lumber Association (WRCLA) offers a wealth of information about the characteristics, sustainability and versatility of Western Red Cedar. For more information, visit www.realcedar.com
